## TERMS

Prices herein are net F. O. B. Portland, Oregon, when packed in bulk, or if boxed or baled, cost of such packing will be added when invoiced.

Cash with order. Packing free.

If it is desired that we send another variety when out of the kind ordered, instruct us accordingly, as we do not substitute unless so ordered.

Digging and shipping season begins with us in October, and continues into April with but little interruption on account of climatic conditions.

## GUARANTEE OF GENUINENESS

We give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, nursery stock, roots or plants we sell, and will not be in any way responsible for the crop.

All claims must be filed within ten days after shipment has been received from carrier.

## NOTICE

All orders are accepted by us on condition that they shall be void should injury befall the stock from any cause over which we have no control.

State plainly in ordering whether we shall ship by Freight, Express, or Parcel Post. If by Freight, name transportation line over which shipment is to go.

Supply and demand ever will be the yardstick that measures values. The supply of tomorrow may change the value of yesterday in any commodity and also the demand of tomorrow may quickly change the price value of yesterday. We are always ready to meet the conditions of today. We reserve the right to change our prices without notice.

# EVERGREEN TREES

## Conifers

All our Evergreen Trees and Shrubs are dug with a ball of earth then securely wrapped with burlap and twine. Thus the roots are not disturbed or exposed. In handling Evergreens or any "balled and burlapped" plants, be careful to not loosen the soil from the roots of the plant. In re-planting cut the twine around the trunk or stem of the plant, roll back the burlap so as to allow new soil to cover the "ball," tamp fine new soil around the plant, leaving the burlap on the plant, soak down with water sufficient to settle the new soil and thus exclude any air pockets. Water liberally during the first summer after planting, and particularly during July and August.

We have larger sizes than listed herein, but have listed only the sizes in the different items that can best be packed and shipped. If you desire larger sizes, we will be pleased to quote you on your specific needs.

# ROSES

There are many grades of Rose bushes, hence as many scales of prices which is necessarily confusing. Our prices are for our best grade of 2 year field-grown plants and are not comparable with much stock quoted at less than it costs to produce our plants. If you want vigorous, fresh healthy plants, we have them.
